KEY CITY DEVELOPMENT ISSUES			Intervention Areas	
<p>The overall city's development plans focus on the following areas:</p> <p>The city of Handan is one of China's main production centers for textiles, steel and ceramics, as well as grain and cotton. Therefore water management is a strategic issue for the city administration as it is extremely deficient in water resources to support this vital role; Concurrent with the water supply problem are also issues related to effective wastewater and sewerage management.</p>			<small>Source of Maps: Wikipedia.org</small>
