| <p>Hai Phong City Municipal Party Committee 09 Dinh Tien Hoang St. Hong Bang District Vietnam</p> <p>Phone: (+84) 8031234 Website: http://www.haiphong.gov.vn</p> | | <p>Mr. Do Trong Dat Director Department of Construction Hai Phong City</p> <p>Phone: (+84) 313822801 Email: ddotrong@hn.vnn.vn</p> | <p>Area: 1,508 km² Population: 1,884,685</p> <p>Hai Phong, the 3rd largest city in Vietnam, is located at the mouth of the Cam River, in Vietnam's northeastern coastal area.</p> <p>This city is Vietnam's economic, industrial, commercial and educational center.</p> <p>It is a significant producer of rice and has the Red River Delta's fourth largest fishing sector..</p> |
| <p>Central State Partner Ministry of Construction - Urban Development Agency (UDA)</p> | | <p>Other Partners</p> | |
| KEY CITY DEVELOPMENT ISSUES | | | |
| <p>The overall city's development plans focus on the following areas:</p> <p>Hai Phong strives to become an ecologically and economically balanced city (Eco2 City) by investing in a sustainable urban system that is integrated and multi-functional. The system would be beneficial in the long term for its citizens through the provision of vital services such as transport, energy, water and waste management.</p> | | | |
| DETAILS OF COOPERATION | | | |
| <p>CDIA supported activities include:</p> <ol style="list-style-type: none"> PFS on the improvement of the wastewater treatment management, sewerage and drainage systems in the districts of Do Son and Duong Kinh. Support the city administration in the development of an industrial and domestic wastewater collection and treatment system. Assist the city in strengthening its own capacity for infrastructure delivery focusing on environmental sustainability and climate change. Link identified investments to potential financiers. | | | |
| EXPECTED DEVELOPMENTAL IMPACTS | | | |
| <ul style="list-style-type: none"> - Better living conditions for residents of two districts through improved wastewater treatment and drainage solutions to reduce environmental risks and threats to human health. - Reduced coastal sea-water pollution through improved wastewater treatment facilities in Hai Phong to stimulate the tourism industry and associated employment opportunities. | | | |
| PROJECT PERIOD | | EXPECTED INVESTMENT FOLLOW UP | |
| OCT/2012 - FEB/2013 | | Est. infrastructure investment value 75.3 mil US\$ | |
| CDIA SUPPORT | | Potential sources of financing | |
| 345,000 US\$ | | PPP | |
| CITY CONTRIBUTION | | | |
| 70,000 US\$ (in kind) | | | |
