KEY CITY DEVELOPMENT ISSUES			
The overall city's development plans focus on the following areas: - The 'TransJogia' bus system (launched in September 2008) was introduced in the city with the objective of attracting people to return to public transport and reduce the negative environmental and social impacts from traditional urban transport; - However, the expansion of 'TransJogia' is currently hampered by various problems related to the following issues: a) limited institutional capacities and b) lack of infrastructure.			
DETAILS OF COOPERATION			
CDIA supported activities include:			
a) Comprehensive sector review with focus on urban transport; b) Infrastructure investment planning and programming; c) Pre-feasibility studies for 3 or 4 high priority projects; d) Assist the city in strengthening its own capacity for carrying out the proposed activities; e) Linkage of the above-mentioned studies with potential investors for financing.			
EXPECTED DEVELOPMENTAL IMPACTS			
- Environmental improvements and CO ₂ emission reduction through promotion of non-motorized transport and multi-modal public transportation integration.
