Geography and Population

Area: 53,062 km²
Population: 10,635,971

Harbin is the capital and the largest city of Heilongjiang Province. It is boost with the largest economy in the province accounting almost one third of its GDP (RMB455 billion in 2012), with a 10% annual growth. Known for having one of the coldest winters among major Chinese cities, Harbin is also one of the well-known winter tourist and recreation attractions.

KEY CITY DEVELOPMENT ISSUES

The overall city's development plans focus on the following areas: In order to cultivate high-skilled technicians to match the rapid development and economic structures, Heilongjiang Provincial Education Bureau summoned to improve Vocational Education conditions and establish comprehensive vocational education training colleges. The expansion of the Harbin Vocational and Technical College to enhance significantly the city's vocational education needs and demands. This project is also designed to be a demonstration example of modern vocational education training. The planned HVTC project will cater for Harbin city and surrounding areas, providing comprehensive vocational education on 60 major subjects, trainings, practice and occupational skill appraisal.
