KEY CITY DEVELOPMENT ISSUES			
<p>The 13<sup>th</sup> five-year plan of Yichang has prioritized the improvement of social security and elderly care. The “Yichang Municipal 13<sup>th</sup> Five-Year Plan on Elderly Care” has pointed out that:</p> <ul style="list-style-type: none"> <li>- There are strong needs of Elderly Care in Yichang municipality and there is a mismatch of needs and services.</li> <li>- Yichang requires a substantial expansion in the elderly care (EC) services and better system design. There is a need to improve the effectiveness of residential care and develop community and home based alternatives that provide the elderly an attractive and affordable integrated system of support.</li> </ul>			
DETAILS OF COOPERATION			
<p>CDIA supported activities include:</p> <ol style="list-style-type: none"> <li>(1) determine the viability of the involvement of the private sector in the development of these selected pilot facilities and its integration and interaction with the overall Elderly Care System (ECS)</li> <li>(2) identify suitable PPP structures to engage the skills of the private sector to provide the necessary care that the elderly community is demanding both now, and in the years to come</li> <li>(3) appraise the financial viability of these alternative PPP structures and how financial viability might be enhanced by finding innovative ways to improve PPP design, utilize ADB funding, and increase revenue generating opportunities for the private sector</li> </ol>			
EXPECTED DEVELOPMENTAL IMPACTS			
<ol style="list-style-type: none"> <li>(1) The ECS system built under the PPP modal will expand the quantity of elderly care facilities and the efficiency of the elderly care system.</li> <li>(2) The project will bring tremendous positive impact to the service quality that matches a more diverse demand of elderly care.</li> <li>(3) Through increasing the affordability of elderly care, the project would benefit most disadvantage and lower income elderly.</li> </ol>
